Our Mission

WIL Europe is committed to the promotion and advancement of the professional and social interests of women in leadership positions and aspiring female leaders, across Europe. Since 2010, WIL Europe has been acting as a platform where such women can meet and exchange, network, enlarge their horizons, and identify opportunities and ideas that are not readily available in their current social and professional environments.

We have created a unique cross-European, cross-sectoral platform that allows women leaders to meet and exchange, expand their horizons and increase their visibility. Not only do we provide a friendly place for best practice sharing and support, but we also create new opportunities for women at large by showcasing different types of professional success.
