

WTP7 Workshop Report

"Ask Me Anything" with Cristiana Falcone

6th December 2022

16:00-17:00 CET

"When thinking about networks, it can be helpful to approach them in a personal way, starting with our affinity networks, rather than as something transactional"

To complement the virtual workshops offered in our Women Talent Pool (WTP) programme, WIL Member Cristiana Falcone, Board Director, Strategic Adviser, Investor, and Philanthropist, brought our Talents new insights during an exclusive 'Ask Me Anything' session with her — the first of its kind for the WTP! The session opened with an introduction and interview led by WTP7 Talent Lisa West, Senior Commercial Manager at Capgemini. She kicked things off by asking Cristiana about her experience as a board member and non-executive director, before moving on to her experience teaching at Luiss Guido Carli University as well as her tips for building a personal brand.

For the interactive part of the workshop, WTP7 Talents were given the opportunity to ask Cristiana all their burning questions. The session, moderated by Lisa West, was filled with constructive career advice and colourful anecdotes on how to create a unique and fulfilling career path.
